## Unit 2 Differentiation (2.1-2.8) KU Images

Multiple Choice | Question

What statement is true regarding the area of triangle inside the circle, sector in a circle and area of triangle outside the triangle.

## Unit 2 Differentiation (2.1-2.8) PS Images

$$\tan(a) = \frac{y_1 - y_0}{x_1 - x_0}$$

$\tan(a)$  is positive

$\tan(b)$  is positive

$$\tan(b) = \frac{y_1 - y_2}{x_1 - x_2}$$

$$\tan(a) = \frac{x_2 - x_1}{y_1 - y_2}$$

$$\tan(a) = \frac{-1}{\tan(b)}$$

$$\tan(a) = \tan(b)$$
